We wish to inform students that the University has the right to withdraw candidacy of a student if there are doubts on his/her records. Once the doubts are cleared, the student will be allowed to graduate. Furthermore, the University can withdraw an award, even after graduation, if it is proven that irregularities were committed during the processing of results. We request those whose names appeared in previous announcement, but have been withdrawn, to remain calm while we conduct our investigations, even if their registrations do not appear in the list above.
