Table 1 indicates a fluctuating enrolment trend from the year 1994 when student admission began at University, to the year 1999. Thereafter shows an increasing trend to the year 2007. The figures for academic year 2007/08 reflect change of the academic year with exclusion of January enrolments.

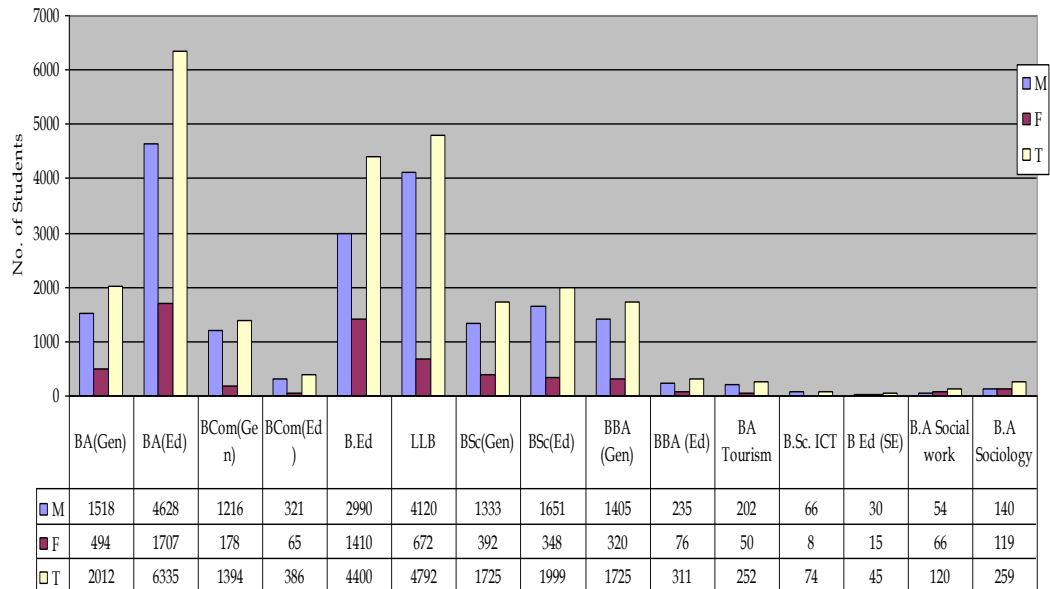

Fig 1 (b): Undergraduate Cumulative Admission by Programme and Gender

Figure 1(b) reveals highest cumulative admission in the BA (Ed) programme for both male and female students.

Table 11 shows how the undergraduate programmes offered have been increasing over time from 4 in 1994 to 13 in 2007/08. The table also shows how demand of various programmes has been increasing with time, calling for proportionate increase of the number of the academic staff to meet the demand

Table 12: Number of Postgraduate Programmes per Faculty

Year	Faculties					Total

Table 12 indicates among other things, a double increase of number of postgraduate programmes in a three year period from 13 programmes in 2004 to 27 programmes in 2007. This tremendous increase reflect an incredible growth in demand for enrolments in various postgraduate programmes at the University.

Table 13 indicates a growing trend of graduands in various programmes with a few fluctuations from 694 graduands in 1999 during the first graduation of the OUT, to 1256 graduands in the year 2007. This shows how OUT has been working hard to achieve its mission of imparting knowledge through open and distance learning mode.

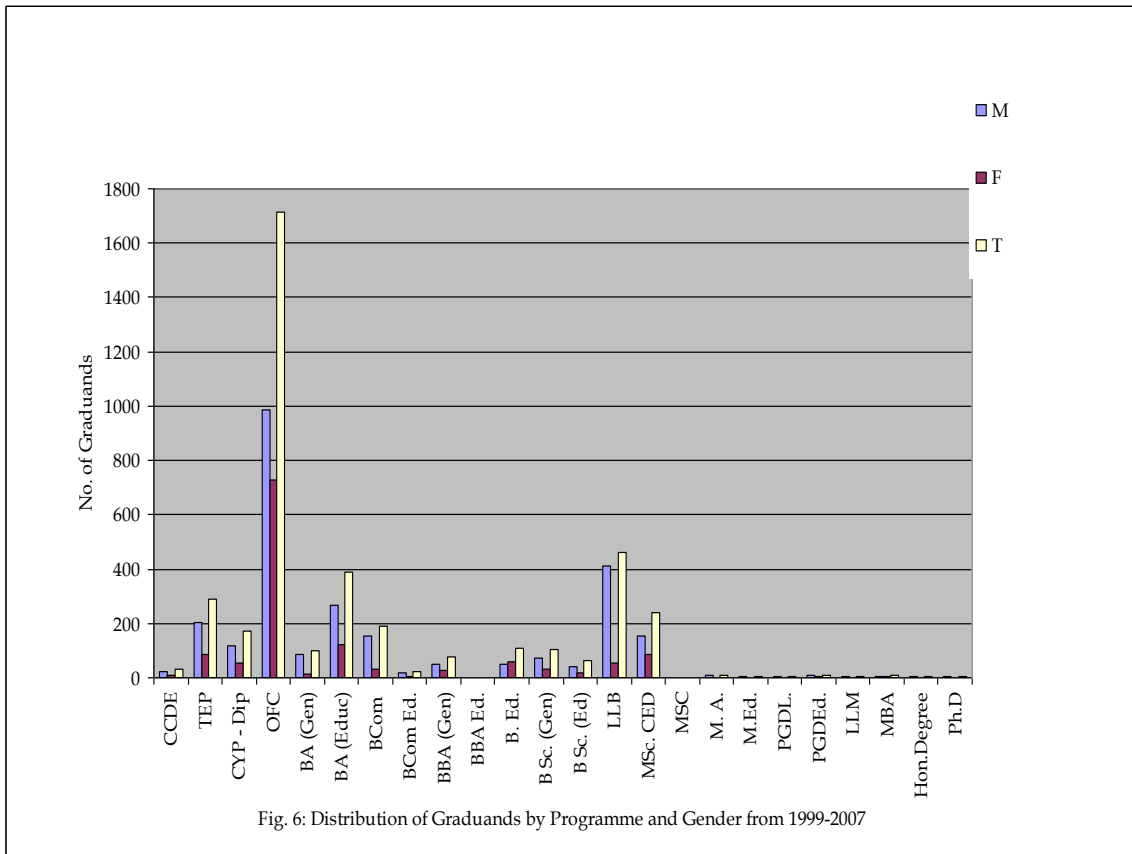

Fig. 6: Distribution of Graduands by Programme and Gender from 1999-2007

Fig. 6 portrays accumulative distribution of graduands by programme with highest graduands record being in the OFC programme

Table 14: Academic Staff by Qualification and Gender

Table 14 shows among other things, more than double increase of academic staff in a three year period from 76 staff in year 2004 to 172 staff in 2007. The increase of staff is necessitated by the increase of number of students enrolling into various programmes at the University.

On the other hand, the table shows how the number of highly qualified academic staff has been increasing over time, with PhD degree holders accounting for almost 30% of the total academic staff.

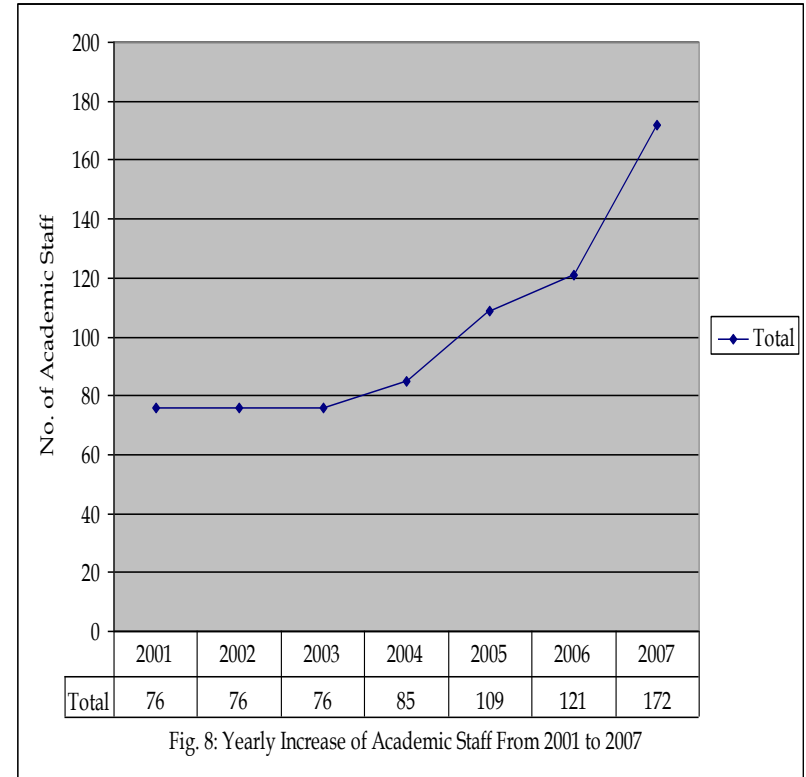

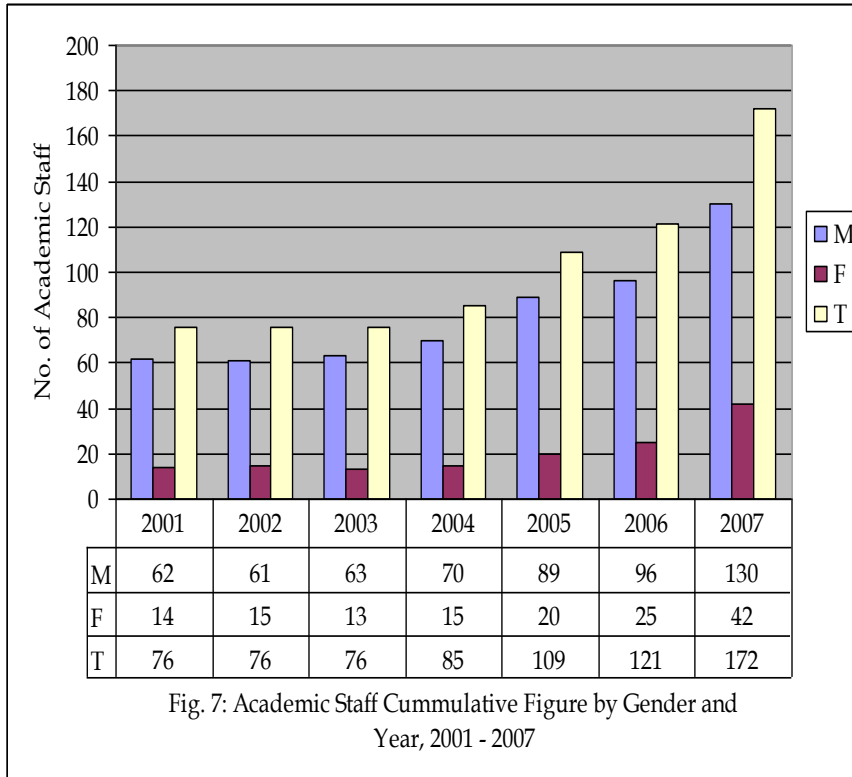

Table 15: Percentage of Female Academic Staff by Qualification
