FACULTY OF ARTS AND SOCIAL SCIENCES

HANDBOOK

2019/2020

Prologue

Welcome to the Faculty of Arts and Social Sciences at the Open University of Tanzania (OUT). This Handbook is designed to orient you to the Faculty. It contains information on the academic development opportunities available to you and the many resources to help you find advice and make good choices as you get started and continue; and also a source of information to look back on throughout the year. This is the Faculty guide, so the information is based on experience and daily activities as an undergraduate or postgraduate student or staff. As well as providing a brief introduction to the OUT, it outlines important faculty policies and procedures, provides information about resources available, and directs students to the location of other resources and useful information.

Comments or suggestions for matters that might be amended or usefully covered in subsequent editions of this booklet would be welcome. They should be sent to: dfass.staff@out.ac.tz.

PREFACE

Dr. Felician Mutasa
Dean, Faculty of Arts and Social Sciences

It is my pleasure to present to you this year's handbook of the Faculty of Arts and Social Sciences, which among other things, is intended at creating awareness of the Faculty, in all its core areas. The Faculty of Arts and Social Sciences is one of the five Faculties of the Open University of Tanzania. It is the oldest at the Open University of Tanzania. It first admitted students in 1994 when the University had its first enrollment. FASS is the largest faculty and prides itself in the wide range of courses and course combinations it offers at both undergraduate and postgraduate levels. Currently the Faculty is staffed with about 97 permanent academic staff, of whom 5 are professors, 35 are PhD holders, 48 hold Masters degrees and 9 are Tutorial assistants. The faculty has nine academic departments, one center and one unit: History and Library Studies, Political Science and Public Administration, Geography, Linguistic and Literary Studies, Journalism and Media Studies, Tourism and Hospitality, Sociology and Social Work; Economics, Community Economic Development, Center for Economics and Community Economic Development, and French Corner. I hope that new as well as continuing students will utilize information provided in this handbook to work hard in their studies. The handbook will also provide relevant FASS specific information that complements the main OUT prospectus, which various stakeholders will find most relevant.

In case you have any queries or need clarification on any issue concerning FASS programmes, your first point of contact is the staff in the Faculty – they are always happy to help you (Ms. Zitha Kessy and Mr. Revocatus Biro, Block C, First Floor, Left Wing). Each programme also has a Coordinator whose job it is to deal with queries that cannot be resolved by the Faculty of Arts and Social Sciences in its general sense. Personal matters should be discussed with your Course Instructor in person. Be sure to make a note of the e-mail addresses and office hours of both the Coordinator for your programme and your Course Instructor. Let me end my introductory remarks by expressing my gratitude to all individuals who have made production of this handbook possible. The handbook is available in both hard copy and in electronic copy in our website (www.out.ac.tz/fass).

I wish you all the best of 2019/2020 academic year.

Dr. Felician Mutasa

Introducing the Faculty of Arts and Social Sciences

The Open University of Tanzania (OUT) is an open and distance learning institution offering certificates, diplomas, degrees and postgraduate courses. It is a vibrant, lively and supporting intellectual community with diverse student body, committed to academic excellence. The University extends learning access beyond the traditional full-time residential student body, hence making it the first of its kind in East Africa.

The faculty has nine academic departments, one center and one unit as also shown in the Faculty organizational structure. These are:

1. Department of History, Philosophy and Library Studies (HPLS)
2. Department of Political Science and Public Administration (PSPA)
3. Department of Geography (GEOG)
4. Department of Linguistics and Literary Studies (LLS)
5. Department of Journalism and Media Studies (JMS)
6. Department of Tourism and Hospitality (T&H)
7. Department of Sociology and Social Work (SOSW)
8. Department of Economics (ECON)
9. Department of Community Economic Development (CED)

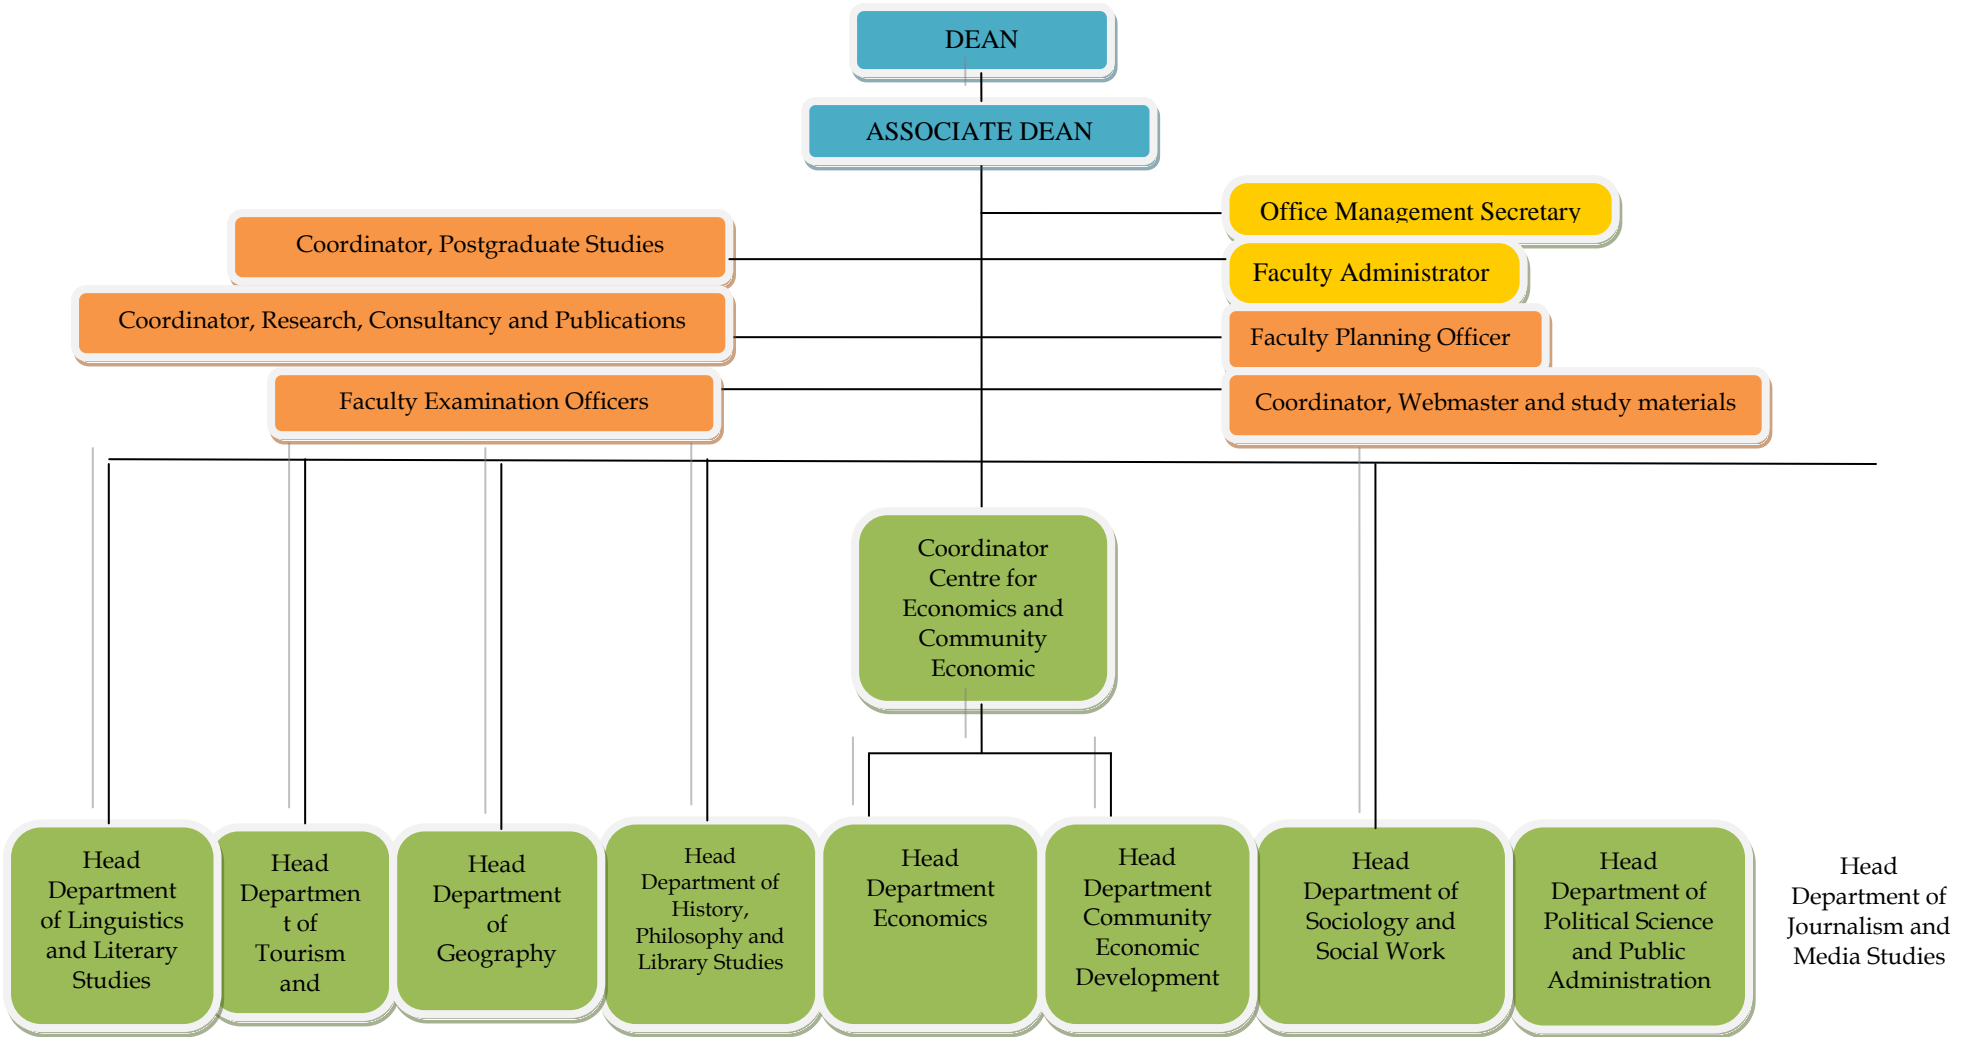

FASS Vision

The Faculty of Arts and Social Sciences embraces the teaching, research, creative activities and service objectives of the Open University of Tanzania. Thus FASS is committed to: providing its students with affordable high quality education in an atmosphere that promotes intellectual vigor, critical inquiry, citizenship and creative decision-making requisites for personal growth and professional success; encouraging exemplary scholarship of teaching, research and service leading to significant publications and performances; and transforming lives by creating and promoting opportunities for lifelong and flexible learning in order to match up with evolving local and global challenges.

FASS Mission

The aim of FASS is at creating and disseminating knowledge through teaching, learning, research and professional practice. It is committed to helping students achieve the highest academic standards. The faculty is dedicated to the fundamental principle that the role of higher education is to develop and nurture a creative, civil and life-sustaining society. Hence, its programmes promote civic engagement, examine our world and envision future possibilities.

Undergraduate and Non-degree Programmes

Who's Eligible for Direct Enrolment in FASS Programmes?

Those who have the following qualifications then are a suitable candidate to undertake our various undergraduate degree programmes:

- Two principal passes Advanced Certificate of Secondary Education Examination (A.C.S.E.E.).
- Diploma holder with 3.0 GPA. The diploma must be of the duration of two years period.
- Applicant who hold a one year Foundation course from the Open University of Tanzania

How Should a Student Approach the Programme as a Whole?

You need to get to know as much as you can about your programme. You can find out through your Directors of Regional Centre (DRCs), FASS website, your course outlines, or your instructors how your programme works. Do you need a certain grade to proceed to the following year? Does your choice of courses fit in to what you might want to do later in the programme? When are the exams and how do they work? Being familiar with your programme from the beginning will save you time and worries later.

What about Exams?

Finding out the examination format, assessment criteria and when and where examinations take place might not be the first things you want to look into when you have just joined and are excited about learning more about your subjects in the first place. But it can be helpful to bear this information in mind. Have a look at past exam papers, which are in the hands of preceding students to get an idea of what will be expected of you. Inquiring about previous examination reports can be even more revealing, as they will tell you exactly what students did well and what went wrong in the past. To register online for examinations, you have to visit the OUT webpage at: www.out.ac.tz. The examination regulations apply from the first Level to the final Level of the undergraduate examinations in the Faculty. Further examination regulation details are available online in the OUT Prospectus which can be accessed at:

<http://www.out.ac.tz/files/importInfo/prospectus%2019-2020.pdf>.

Which Code Stands for what, and How do I Choose Subjects?

Each subject starts with an "O" which stands for The Open University of Tanzania. It is followed by the subject alphabet and code numbers. The code numbers used will be in the series of 100 for Part One, 200 for Part Two and 300 for Part Three.

Following are the subject codes:

CED	-	Community Economic Development
ODS	-	Development Studies
OEC	-	Economics
OGE	-	Geography
OPD	-	Human Population and Development
OIR	-	International Relations
OLL	-	English Language and linguistics
ORM	-	Natural Resource Assessment and Management
OHI	-	History
OLL	-	English Language and Linguistics
OLT	-	Literature
OLM	-	Library and Information Management
OPR	-	Philosophy and Religious studies
OSW	-	Kiswahili
OPA	-	Public Administration
OPS	-	Political Science and Public Administration
OTS	-	Tourism Studies
OTM	-	Tourism Management
OSP	-	Social Work Studies

OSS	-	Sociology and Social Work Studies
OSPS	-	Social Psychology
OJO	-	Journalism
OMC	-	Mass Communication
FRA	-	French

The choice of course combination for The Open University of Tanzania Degree programme shall be approved by designated officers of the University. Note that any change in any subject combination will be made only in consultation with the designated officers of The Open University of Tanzania. Such changes will only be allowed before or during the first face to face session of the course and in exceptional cases only in order to qualify for the award of a degree, a student is normally required to complete a minimum of 36 to 40 course units, depending on specific programme requirements. Further details about our programmes are also available in the OUT Prospectus at: <http://www.out.ac.tz/files/importInfo/prospectus%2019-2020.pdf>.

Bachelor Degree Programmes

At undergraduate level, FASS currently offers 16 programmes through Open and Distance Learning (ODL) mode of delivery. These include:

- Bachelor of Arts in Tourism Management
- Bachelor of Arts in Sociology
- Bachelor of Social Work
- Bachelor of Arts in Journalism
- Bachelor of Arts in Mass Communication
- Bachelor of Community Economic Development
- Bachelor of Arts in Economics
- Bachelor of Arts in Natural Resource Management
- Bachelor of Arts in Population and Development
- Bachelor of Arts in Literature
- Bachelor of Arts in Kiswahili and Creative Studies
- Bachelor of Arts in English Language and Linguistics
- Bachelor of Library Information Management
- Bachelor of Arts in History
- Bachelor of Arts in Public Administration
- Bachelor of Arts in International Relations

Reading Materials and Library Services

Studying for the degree requires students to engage with a mixture of printed and electronic resources. Some of these may be originally printed materials, now available to in electronic format – for example, downloads of journal articles or books. However, the degree is not simply e-learning in the sense that all the learning and activities take place as you sit at your computer. You will also be expected to visit libraries to research topics, and to obtain books, either through the university library or through purchasing your own copy of key texts. In view of the foregoing, the OUT Library offers state of art technology, vast collection of research and reading materials and the specialized services. The main Library lies at the heart of the OUT Headquarter, while mini libraries are set in locations convenient to the staff and students in the Regional Centres. The Library houses more than 200,000 printed volumes, while their virtual presence consisting of bibliographic and full text databases, online theses/ dissertations, e-books, open courseware, e-journals and growing institutional digital repository make it a gateway to a wealth of research and learning materials. It also makes available online catalogue of books available in the main library and in the regional centres. For more essential information about the library hours and services, and access to the library resources, both on and off-campus, visit the OUT Library website at: www.out.ac.tz/library/.

MOODLE and the Internet

We are progressively making use of a Virtual Learning Environment (VLE) called MOODLE (Modular Object-Oriented Dynamic Learning Environment). To access MOODLE platform you will need to log into the relevant portal with your username and password. MOODLE is used for several purposes, for example downloading the relevant documents that you will need as you study, and keeping up with advancement in information and communication technology. You will also be able to use it to contact other distance learners through the student

forum. The instructors will be developing and updating the MOODLE resources as an on-going part of the programme development.

Bachelor of Community Economic Development (BCED)

Community Economic Development (CED) is a participatory process by which communities initiate and generate their own solutions to economic problems leading to positive concrete changes in communities through: creating employment; stabilizing local economies; reducing poverty; contributing to the health of the natural environment; building local resources and capacities; and increasing community control. CED is understood in its widest sense as an emerging, diverse field of practice accompanied by analysis of the social-economic context. The BCED programme seeks to provide a unique opportunity to students who wish to develop their career in CED.

Objectives of the Programme

The main objectives of the Bachelor of Community Economic Development are to:

- train Community Economic Development practitioners to work in the government, private sector and with communities;
- generate knowledge and information that will permit leaders in government, private sector and in communities to make informed decisions;
- encourage a high degree of local participation in making well informed economic choices;
- assist in building sustainable institutions that will assure equitable sharing of the benefits of those choices;
- build capacity among practitioners working with communities.
- equip students with sufficient knowledge, skills and attitude that will enable them to work competently as economists in the government, international organizations, financial sector, business sector, etc.

Entry Qualifications

Candidates for BCED will be admitted on the basis of the Open University Tanzania's rules and regulations which govern the admission process.

Duration

The course shall be completed at least within three years in all modes. However, a student can extend to a maximum of up to eight years for a distance mode.

Assessment Regulations

Students are assessed by a combination of timed test and final examination. The timed test comprises of 30% while the final examination carries 70% making a total of 100%. The formal examinations and timed test allow sufficient assessment and feedback to maintain intellectual rigour and provide opportunity for individual improvement.

Structure

The programme structure has three levels. Each level is equivalent to two academic years, assuming an average learner. Details of the courses in each level are provided in the table below:

Code	Title of the Course

Bachelor of Arts in Kiswahili and Creative Studies

The Kiswahili and Creative Studies programme is divided into THREE levels: 100 series, 200 series and 300 series. At level 100 series the courses acquaint students with both the background and other major linguistics

and literary theories and the application of these theories in critically analyzing Kiswahili language and literary works. The two remaining Levels (200 -300 series) of the programme provide instruction on a more advanced level in a broad range of core subjects and therefore enable a student to choose from a range of optional courses which might form the basis of specialization in their future career and studies. The programme is concluded by testing students' research skills. Those who scored B+ in research methodology (OSW 225) will be given an opportunity to demonstrate their acquaintance in research methods and methodology by registering OSW 336 Research Project in Kiswahili. All candidates are required to take at least 36 OUT units which is equivalent to 360 TCU credits, each unit covering content materials equivalent to thirty five one hour lecture materials.

Programme Organization

LEVEL I: The candidate shall take all core courses, making a total of 10 units

Course Codes	Course Name
OSW131	Introduction to language and linguistics
OSW I32	History of Kiswahili and Dialect
OSW133	Kiswahili Literature: Theories and Criticism
OSW134	Theory and Practice of Translation

Department of Geography

The Department of Geography has two main undergraduate programmes: Bachelor of Arts in Natural Resource Management BA (NRM); and Bachelor of Arts in Population and Development BA (PD). They are paralleled by old programmes which are offered by the Department in collaboration with education programs

Bachelor of Arts in Natural Resources Management (BA NRM)

The Bachelor of Arts in Natural Resources Management (BA.NRM) use and development of resources; coupled with practical field experience, knowledge and skills necessary for meeting challenges of sustainable use of natural resources. At the end of the programme, learners will be expected to have acquired competences in poverty analysis and social development planning. Ultimately the programme will produce competent professionals who can identify, plan and monitor the exploitation of natural resources.

Programme Structure

It consists of 14 core courses and 4 electives. Each course (core and elective) is 2units. There are 2 compulsory cross cutting courses on offer (computer and communication skills) each with a1-unit weight. A student is required to complete 36 units in order to qualify for a BA in Natural Resources Management degree. This shall be made of all core courses in each level whereby at each level a student shall be required to accomplish a minimum of 12 units. For example, in level 1 a student will be required to undertake 10 units from the core courses as indicated in this Handbook and select any 1 elective course. In level 2 students shall be required to accomplish all 5 core courses which make up 10 units and select a minimum of one course from the elective courses. In level 3 students shall be required to do 5 core courses which make 10 units and select a minimum of 2 elective courses.

LEVEL 1 (FIVE CORE AND ONE ELECTIVE)

Bachelor of Arts in Population and Development (BAPD)

The Bachelor of Arts in Population and Development aims at equipping graduate students with demographic, Social, economic and geographic analytical tools and their applications in resource in planning and use for sustainable development. At the end of the programme, learners will be expected to have acquired competences in determining the relationship between population and other broad parameters, such as internal and international immigration, poverty, environment and global warning which are essential for development planning. The programme is designed to produce competent professionals in demography, population and development planning.

Programme Structure

BA (PD) consists of 15 core courses and 8 electives. Each course (core and elective) has a 2 units' weight. In addition, there are 2 compulsory cross cutting courses on offer (computer and communication skills) each with a 1-unit weight.

This shall be made of all core courses in each level whereby at each level a student shall be required to accomplish a minimum of 12 units. For example in level 1 a student will be required to undertake 10 units from the core courses as indicated in this Handbook and select any 2 elective courses listed here. In level 2 students shall be required to accomplish all 5 core courses which make up 10 units and select a minimum of one course from the elective courses. In level 3 students shall be required to accomplish all the 4 core courses which make 8 units and select a minimum of 2 elective courses.

OGE 229: Geography Field Practical's

1. There are two Geography Field Practical's (GFP I and GFP II) to be done by all second and third year students taking Geography. The 2 GFPs will carry 2 units.
2. The aim of conducting Field Practical's is to enable student to match and concretize theory and application of geographical knowledge in the Field.
3. Geography Field Practical's are deliberately decentralized into geographical zones. It is intended to bring the Practical's closer to students in their own physical environments so as to know more about it as a potential for community development; and to minimize GFP running costs.

4. All 2nd year Geography students have to undertake a 14 day supervised Geography Field Practical in their respective Geographical Zones/ regions. GFPI & GFPII will be conducted successively within the 14 days provided.
5. Thereafter, students have to write a Group Work Report for GFPI and write a comprehensive report for GFPII to be submitted three months later after completion of GFPI.
6. Students have to incur subsistence, travel; and stationery costs during Geography Fieldwork apart from paying Tsh 260,000 to the OUT. This amount of money can be solicited by the student from different sources including applying to the Universities Student Loan Board.
7. No student will be allowed to carry out GFPII before completion of GFPI first.
8. The Final Grade is the average between scores obtained after marking GFP I and GFP II out of 100%

Bachelor of Library and Information Management

Programme Overview

Bachelor of Library and Information Management has been developed in response to the demand for a large number of trained personnel in libraries, documentation and information centres. Another reason is due to repeated requests by practitioners in the Library Science profession who need further training opportunities through a distance-learning mode of delivery that is both flexible and affordable. The Bachelor of Library and Information Management Programme is offered through distance learning mode. The main medium of instruction will be through print materials and ICT supported e-materials. To qualify for the award of a degree, a candidate must clear all the three levels of the degree course. The maximum duration of study is eight years but the teaching and learning process is flexible enough to allow fast learners to complete the programme earlier. A fast learning student may cover more units in a year; hence be able to complete the courses in less than the specified average period for obtaining a degree which currently is three years. The Bachelor of Library and Information Management Programme is designed to provide student with a combination of theoretical and

practical knowledge and with abilities to apply the same in various functional areas of library and information science. Graduates from the programme are expected to develop attitudes associated with progressive information services and to develop an understanding of the value, role and application of modern technology as it relates to library operations and the transfer of knowledge.

Programme Structure

The programme requires a student to complete a minimum of 38 OUT units, including Practicum to graduate. A student will have to study at least 12 units for each academic year. Core courses are compulsory for all students. Beyond the required core courses, students have the option of crafting a program of study specific to their interests and career goals in order to fill the gap so as to have 12 units as a minimum; there is no restriction in studying electives.

Notes:

- (i) Total credits for the programme is 380 (TCU credits) which is equivalent to 38 OUT Units
- (ii) OCP 100 and OFC 017 are compulsory university-wide courses.

OLM 206 Practicum: The practical training attachment exercise will require each student to work in a selected Library, Archive or Information Centre for a minimum period of 42days. The field attachment exercise shall be assessed and graded.

Department of Political Science and Public Administration

The Department of Political Science and Public Administration has developed new programmes to cater for the demand in the Labour market. These programmes are Bachelor of Arts in Public Administration (BAPA) and Bachelor of Arts in International Relations (BAIR). Candidates who are currently pursuing BA (General) are allowed to migrate to new programmes if they so wish.

Bachelor of Arts in Public Administration

Rationale

The programme has been introduced to cater for the badly needed competencies and skills to manage both government and private affairs at government and personal levels. The cadre that will go through the programme is expected to occupy various positions of administrative nature as supervisory and middle level managers, either as administrators, personnel officers, human resources officers and several others. This cadre is needed to strengthen the capacity of the government at local and central levels to deliver services to its clients for effective and efficient operations of those offices. The fact that the government structure and systems are undergoing remarkable changes requires employees who have been well nurtured and groomed to acquire those attributes of dynamism, innovativeness, creativity and commitment towards the services in their country and in the region as a whole. The fact that Public Administration, which forms part of Political Science has not been well streamlined in the Political Science and Public Administration stream, not only in our University but also in other old universities where Public administration is taught as part of political science programme. As such under this programme Public Administration as a discipline and a profession will be more focused and thus enable the trainees to come out well versed with the methods and approaches in the management of governmental affairs

The specific objectives of this programme are to:

- i. Train students to acquire professional qualifications so that they can serve in different administrative and managerial positions in public and private sector organizations
- ii. Produce graduates who can fit well in the career of public administrators and able to make contribution to the dynamics of administration of public and private organizations;
- iii. Equip students with knowledge and skills to enable them to address the complex problems and pressures that surround public organizations and explore viable solutions within those organizations
- iv. Equip students with the requisite qualifications for enrolling into Masters programme in this University and others within the country and outside the country
- v. Equip students with competences and skills that will make them compete well in the labour market, within the country and in the region as a whole.

Assessment Strategy

All courses are examined during the academic year in which they are studied. The examinations consist of written Tests, demonstrations, Practical projects and written Annual examination at the end of each part based on percentage guides. Tests account for 30% while the written Final examination account for 70% of total marks. The pass mark for both continuous assessment and annual examination is 40%. A candidate who fails to attain the pass mark is allowed to write a supplementary examination. A candidate who fails in a supplementary examination will be required to repeat the course. Repeating a course means doing the Test and Annual examination.

Programme structure

It should be born in mind that the Bachelor of Arts in Public Administration is being introduced to the university for the first time. It covers some theoretical and practical knowledge for that will enable students become better performers of the public service. The programme is detailed here under:

Course Codes	Course Title
OFC 017	Communication and Study Skills
OCP 100	Introduction to Microcomputer studies and information Technology

OIR 302	Contemporary Issues in Global Politics

Field Practice:

The students have to undertake a compulsory field attachment for six to eight weeks, during which students shall be exposed to the real world of work. During this period student shall be able to merge theory with practice.

Bachelor of Arts in International Relations (BAIR)

Rationale

A complex pattern of interactions and cross-border transactions in the contemporary international system point to a need to develop training curricula that will cater for current and future needs of University students to build their capacities to cope with and address the challenges associated with a broadly extended international issues. For example the dramatic change in the modus operandi of the transnational corporations brings about a problem of maneuvering the harmonized rules and principles of equity shares of the gains and losses between partner-states. The Bachelor of Arts in International Relations degree programme is designed to equip students with modern skills and competencies, and to prepare them to become responsible international citizens who can act firmly and aggressively in the international arena. The programme is designed to produce qualified and practically competent practitioners in the area of International Relations and Diplomacy who can match theory and practice and demonstrate an impact in the management of foreign affairs. The Bachelor of Arts in International Relations programme is designed to provide students with a combination of theoretical and practical knowledge and with ability to apply the same in the various capacities and levels. Graduates from the programme are expected to have:

- ✓ Analytical capacity on international affairs
- ✓ A high level of communication skills
- ✓ The ability to identify and analyze problems and opportunities and collect pertinent data
- ✓ A sensitivity to controversies of cross-border nature
- ✓ An ability to act as change agents and manipulator of various foreign affairs

These characteristics will enable graduates of the programme accomplish the goals by working with and through people in political settings of both, national and international levels.

Student Profile

The programme targets local and international individuals who meet the OUT's minimum admission criteria, irrespective of age, gender, race, physical abilities and other individual situations. Offered through the Open and Distance Learning mode, student enrolment in the programme is unlimited.

Programme Structure

The programme is designed and implemented in 3 sequential levels: 100 Level (Level One) which is an introductory to key concepts and theories; 200 Level (Level Two) which imparts detailed knowledge, understanding and develops appropriate intellectual skills; and 300 Level (Level Three) which further enhances professional, practical and transferable key skills through research, field visits and internship and synthesis. The three levels can be completed in three years, but average learners can cover the same in not more than six years.

Department of Sociology and Social Work

Introduction

Until 2011/2012 The Department offered two sister programmes: Bachelor of Arts in Sociology and Bachelor of Arts in Social Work which were considered two in one degree programme whereby students graduated either as social workers or as sociologists. The degree programmes were designed in such a way that, in the first two years, all students took the same subjects. From third year, students selected either to opt for Social work studies or for Sociology studies, hence the difference in the output. From the academic year 2012/2013, following a review of the Social work component of the two in one degree, Bachelor of social work became a standalone degree. The Bachelor of Arts in Social Work Degree (BASW) had been phased out.

Bachelor of Arts in Sociology (BASO)

The Department of Sociology and Social Work has recently reviewed the Bachelor of Sociology programme which is expected to be submitted to TCU for accreditation soon. A stand-alone Bachelor of Arts in Sociology degree was approved by TCU and started to be offered in 2015/16. The programme has been designed focusing on specializations including Medical, Social Welfare Administration and Rural Sociology to suit the current social demand. This motivated the need to establish Master of Sociology which is highly in demand by the stakeholders.

The department established two new programmes M.A Gender Studies (MAGS) which started in 2016/17 academic year.

Entry Qualification for the Bachelor Degrees

Candidates for Social studies will be admitted on the basis of the University regulations, which govern admission process.

Subject Combination and Units Coverage for the Bachelor Degree

There are 18 core courses for each field of study. Each of these courses has two units. The core courses thus accounts for 36 units. An addition of 4 units can be obtained from elective courses opted from various course including their respective departments. A total of 40 units will have to be covered by a student in order to qualify to graduate. Besides opting for elective courses from their respective departments, students can also take courses from the following recommended courses: ODS (101A Concepts of Social Development), Faculty of Business Administration Labour Law and Business Law) and within FASS department of Political Science (Public Administration and ODS (Concepts of Social development).

Assessment Procedure for BA Sociology and BA Social Work (under OSS Code)

- Course work for BA. Sociology (BASO) and BA Social Work (BASW) accounts for 30% which includes one main timed test (MTT). The Annual Examination accounts for 70%, thus making a total of 100% score. The same assessment procedure applies to BSW and that will also be reflected in the new Bachelor of Sociology and BA in Psychology courses.
- Students Field Practice: After successful completion of the first two year courses, students will participate in field practice in third and fourth years respectively. Part I and Part II field practice will be counted as one course each carrying 50%, thus making a 100% score for the two.

The courses for Bachelor of Arts in Sociology and Bachelor of Arts in Social Work Programmes are as shown in the table below:

Department of Journalism and Media Studies

Introduction

The Department of Journalism and Media Studies offers two degree programs which are BA Journalism and BA Mass communication where by students graduate as Journalists or as Public Relations Officers/Corporate Secretaries. The degree programmes are designed in such a manner that during the first year of the studies, all students i.e. those taking B.A Journalism and those pursuing BA Mass Communication will undertake the same subjects. During the second and third year, however, the students taking Journalism will undertake a different programme from that of the Mass Communication hence the difference in their output. The Department of Journalism and Media Studies is currently preparing curriculum documents for two Master Degree Programmes which are MA (Mass Communication) and MA (Journalism).

Entry qualifications

Candidates for Journalism and Media Studies will only be admitted on the basis of the Open University of Tanzania's rules and regulations which govern the admission process.

Subject combination

There are 21 core subjects for BA Journalism and 23 core subjects for BA Mass Communication. Four of the core subjects which students of both programmes are required to undertake at Level I are offered by other Departments. These courses include OFC 017 Communication Skills, OCP 100 Introduction to Microcomputer Studies and Information Technology, OCP 121 Critical Thinking and Argumentation, and ODS 101A Concepts and Theories of Social Development. The core subjects for the BA Journalism programme forms a total number of 34units while of the BA Mass Communication programme forms 36 units. BA Journalism students shall be required to take at least five elective courses while BA Mass Communication students shall take at least three elective courses to cover 39 units in order to graduate. Two elective courses are offered at Level I for both programmes, three elective courses at Level II whereby two are for BA Journalism and only one is for BA Mass Communication, and at level III only one elective course is offered for both programmes.

Assessment procedure

Course work for BA Journalism and BA Mass Communication accounts for 30% for the Main Timed Tests. The Annual Examination accounts for 70%, thus making a total of 100% score.

Student Field Work and Practicum

All students will be required to undertake field study at Level II and III. Also students shall be required to conduct practicum at all Levels. Field work and practicum carries two units at each level.

Admission Requirements

Candidate holding first degree or its equivalence in any field from recognized institutions is eligible for admission into FASS programme. Further admission criteria are as stipulated in the OUT prospectus (www.out.ac.tz/prospectus)

Delivery Modes for Masters Programmes by Coursework

We are progressively making use of a Virtual Learning Environment (VLE) called MOODLE (Modular Object-Oriented Dynamic Learning Environment). To access MOODLE platform, you will need to log into the relevant portal with your username and password. MOODLE can be used for the purpose of downloading the relevant learning resources and it can also be used as a platform for student-student or student-teacher interactions. From new academic year starting Oct 2015 all FASS programmes will be offered through blended/hybrid executive mode where students learn through e-learning platform called MOODLE. Through this platform student are registered into the system and a lecturer for each course uploads documents to be read in one week. In week 2 a lecturer posts a discussion question and appoints two students to propose a model answer. Other students do discuss online by posting their emails commenting on the model answer.

Programme Structure and Assessment

So to complete one course there are six parts equaling to 12 weeks of learning for each course. There are three modules (trimesters) of about 12 weeks each required to complete the coursework. For example, if the programme has 6 taught courses in total, for each module there could be two courses (i.e. two instructors). For each course in a trimester there is a different assessment because they are taught by different lecturers. For each course there is take home term paper (assignment) to be given to students in the second half of the respective trimester; and final comprehensive examination at the end of trimester. The online discussions weigh 20%, term paper-30% and final exam-50%. The lecturers do monitor accuracy of contributions each student makes when discussing to constitute the 20%. The examination is done by students at any regional center when they

are ready. Students must have participated in the discussions for all the 6 parts of the course in the MOODLE platform for them to be allowed to do final examinations. The final exam is done after second F2F sessions after consultations with students.

Face to Face Sessions

There are two face to face sessions. The first one is done once only-this is for orienting students before the programme starts. The objective is to officially launch the programme and orient students on how to use MOODLE and how to register and modify their profiles in MOODLE platform. This takes about 2-4 days, normally on weekend in Dar es Salaam. If students cannot afford to come to Dar es Salaam, they are advised to visit any of the OUT regional centres where we have ICT technical staff who can register them into MOODLE system and orient them on how to use the MOODLE platform. In the first face to face all lecturers are encouraged to be around but most of the orientation is done by the programme coordinator and the Heads of Department. The second Face-to-Face is done at the end of each trimester where the lecturers involved in the trimester do meet with students normally in Dar es Salaam each for about 2 days hence 4 days for the two courses. The second Face-to-Face sessions are optional for students. Instructors do respond to difficult areas encountered during reading the documents and also during the discussions. It is also the time lecturer may insist or clarify on some academic issues that are of interest to students. The Face-to-Face sessions (first or second) can be conducted in any regional centre with at least 10 students. This implies that one does not necessarily have to leave workstation to do this course (and other FASS courses) from Oct 2015.

Duration of Programmes and Tuition Fees

The duration of the programmes is about 15months (about 9 months' coursework and 6 months of dissertation). The fee is Tsh. 500,000 for each course excluding dissertation i.e. the cost for one unit (10 credits) is equivalent to Tsh. 180,000, while most postgraduate courses weigh 2 units (20 credits).

The supervision cost for the dissertation is Tsh. 900,000. The minimum number of taught courses for most masters programmes is 6 (i.e. 2 courses per trimester excluding dissertation); hence the minimum tuition fee for such programme with 6 taught course would be Tsh. 3,900,000 [i.e. (500,000X6) + 900,000].

It should be noted that each examination is charged Tsh. 20,000 different from the tuition fee; hence a student should think of allocating Tsh. 120,000 for the 6 courses. This makes a comprehensive total fee to be Tsh. 4,020,000. The fee is paid in installments per trimester/module, and this is calculated according to the number of courses a student takes in one trimester/module. For example, if one takes two courses in a trimester/module, they will have to pay at least Tsh. 1,000,000.

It is intended for information practitioners who envision to work within information-based organizations, non-government organizations, international organizations, and central or local government departments. The programme is committed to carry out highly effective participatory approaches to managing and solving information management problems in the communities. The programme is committed to carrying out highly effective participatory approaches to managing and solving library and information science problems affecting the industry.

The main objectives of this programme are:

- ✓ To train potential librarians/ information managers on the best and participatory way to work in the information-based organizations
- ✓ To generate knowledge and professional skills on information management to enable leaders to make informed decisions
- ✓ To assist in building institutions that will ensure equitable sharing benefits of information
- ✓ To build capacity among information professionals working in public and private institutions

Programme Mode of Delivery

Masters in Library and Information Management is an 18-month, 18-unit (equivalent to 180 TCU Credits) programme. Each student of Masters in Library and Information Management will be required to undertake all core courses. The programme will be offered through blended mode where e-learning platform (MOODLE) is mostly used followed with a short face-to-face lecture session in three trimesters of taught coursework

In each trimester two courses are taught and lasts for about 12 weeks.

Attendance to Face to Face is optional but students are encouraged to attend and if not unable then students are encouraged to use Skype to follow class sessions. Participation in discussions through MOODLE platform is compulsory for students and no one is allowed to sit for final exam without effectively participating in MOODLE discussions. After coursework, students are supposed to work on their dissertations. If a student has passed coursework but failed to do (or pass) dissertation beyond allowable registration duration is offered an ex-Postgraduate Diploma.
