OPEN UNIVERSITY CONSULTANCY BUREAU (OCB)

Results-Based Project Monitoring and Evaluation Training

DAR ES SALAAM

6th - 11th July, 2020

Course overview

The 5 days course covers the principles and practices for results based monitoring and evaluation. This course equips participants with skills in setting up and implementing results based monitoring and evaluation systems. The participants will benefit from the latest M&E practices including the results and participatory approaches. This course will bring learning to practice for participants to learn about the results levels and their linkage with indicators and techniques for tracking and assessing the progress of a project with the aim of achieving long term results.

What you will learn

By the end of this course the participants will be able to:

- Determine the relevant stakeholders involved in monitoring and evaluation of projects
- Clarify key project results levels
- Design a project using logical framework
- Develop indicators and targets for each result level
- Track performance indicators over the life of the project
- Evaluation a project against the set results
- Develop and implement an M&E system
- Develop a comprehensive monitoring and evaluation plan

Expected Outcomes

By the end of this course the participants will be able to: Clarify key project results levels, Develop indicators and targets for each result level, Design a project using logical framework, Develop and implement an M&E system.

Who should attend?

The training is designed for programme / project managers and officers, M&E officers, Community Development Officers, Planning Officers, government officials, policy makers, programme implementers, NGO and CSO members. Other parties with interest in improving their skills in project monitoring and evaluation are also welcome.

Course Outline

❖ Introduction to Results Based Project Management	❖ M&E Systems
